(a) D = 4: energy per particle at saturation
(b) D = 3: energy per particle at saturation
(c) D = 4: mass of the particles at saturation
(d) D = 3: mass of the particles at saturation
E/A − m (units m)
M/m
G_V = 0
G_V = 0.1 |G_S|
Hartree-Fock ratio 0.2025
deflation clock τ_d, counted from the binding threshold
deflation clock τ_d, counted from the binding threshold
