(a) scalar contact term $-G_S/C = 0$
(b) scalar contact term $-G_S/C = 1$
(c) phase mode in matter
shift of the binding moment $\Delta\tau_d$
bare-mass fraction
$f_D = 0.00$
$f_D = 0.25$
$f_D = 0.50$
vector contact repulsion G_V/C
vector contact repulsion G_V/C
m_ϑ^2 in matter / m_ϑ^2 in vacuum
$\Lambda = 1\,m$
$\Lambda = 2\,m$
$\Lambda = 4\,m$
Fermi momentum / cutoff, k_F/Λ
